Advantages

Engaging subject expertise - PhD Writers at PhD Assistance Research Lab have capability & skills to develop your research domain

Doing a PhD Dissertation or Thesis Research is a critical process in the ongoing development as it wanders off in many directions and can end up far removed from the original idea. Therefore, it needs brainstorming sessions from an experienced Ph. D and postdoc researcher who demonstrates how decisions at each stage affect what can be done at the next step. PhD Assistance experts focus always remains on findings the answer to the research question.

At PhD assistance Research Lab, who has the team of qualified research professionals with experience in identifying research area based on your experience, and literature sources (previous studies). We use a wide range of seminal resources such as peer-reviewed journals and databases to identify relevant base papers (or concept papers) related to your research topic such as PubMed, PROQUEST, EconLib, Embase, Google Scholar, PyschInfo, JSTOR, etc.

Our PhD research gap identification from **base paper selection** criteria depends on several factors viz., geographical area, culture, time frame, discipline, population group, locally confined, recent, etc.

The PhD topics can be decided or refined further based on the base paper along with industrial problem identified through this process.

“PhD Research Lab provides base paper selection based on your industry experience, your professor / the UK university interests area, a news story recently that has piqued interest (e.g. CNN, the Lost Angeles Times, Huffington Post, Fox News, or Newsweek), personal issues, problems and future recommendations identification”.

- Dr.Nancy, Head of Technical Operations
