### Text data collection Services

Collecting high-quality Text data (local-specific) sample for training ML data is daunting tasks. PhDAssistance provides text data collection services for computer vision, pattern recognition and machine learning solutions. Our experts ensure to collect natural language text data based on your specifications on diverse platforms covering wide domain specific lexica, voice-interactive devices and automated phone systems, and specialty word lists. Our data collection includes any field including meta-data, geographical locations, computing, transportation, food, acronyms, abbreviations, artists names, music titles and business listing. We not only collect the videos but also annotate the data.

- Text data Collection (per video)
- Basic Annotation

### Subjects

Social Science

Medical Science

Life Science

Business & Economics

Physical Science

## Related Services
